## PERSONAL SKILLS

Mother tongue(s) Bulgarian

Other language(s)

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken interaction	Spoken production	
English	B2	B2	B1	B1	B1
Italian	B1	B1	B1	B1	A2

Communication skills Good communication skills gained through my experience as work with students.

Organisational / managerial skills

Since 2003 I work on an own project on species diversity in The South park in Sofia. In the period 2003-2016 I discovered there more than 70 species of birds there, most of them protected by the Law. With the help of the Bulgarian Society for the protection of birds for the kids from 6th Helping (Subsidiary) school I organized and exhibition and shown a film about the wild birds and took them few times to watch the birds in the park. On this subject I gained the attention of the journalists and that was topic of few programs and reportages.

In 2006 I developed a plan for improvements of the conditions for rest (relaxation) zones near English-American college with the purpose to create habitats and attract as many as possible species of birds in this area.

In 2006 I was invited to take part in a scientific expedition, organized by the Faculty of geography and geology of Sofia University "St. Kl. Ohridski", about exploring the conditions of the different landscapes in the South-East of Bulgaria.

In the summer of 2008 I organize photo expedition "Dolmens - Vultures in East Rhodopi". Part of the activities were related with helping to protect the unique nature of the East Rhodopi. In the spring of 2009 I organize photo expedition "Dunav 1". The purpose was to reveal the beauty of this part of Bulgaria with landscape and wild life's photography.

Digital competence

SELF-ASSESSMENT				
Information processing	Communication	Content creation	Safety	Problem solving
Independent user	Independent user	Basic user	Basic user	Basic user

- Good command of office suite (presentation software)
- Very good command of photo editing software gained as an professional photographer

Other skills

My hobby is related with wild life photography. I hope my photos to help for revealing the full diversity and the beauty of the wild nature and its conservation for the coming generations.

Driving licence Category B and M
